Sorry, I cannot count this morning. The new letter J is in the 12th position.

It has come to my attention that there are 2006 X-types arriving with a J in the 12th position. This is because the UK Halewood plant produced the last vehicle with E99999 and made a jump over to J00001. The letters in between E and J were already assigned.

Please update your records accordingly.
